## WT Appeals Aldridge Judgment

West Texas State University has appealed reinstatement of an expelled student.

The appeal has been filed in the 7th Court of Civil Appeals in Amarillo.

The student, Darrell Aldridge, 21, Lamesa, was suspended Feb. 3 by a university disciplinary committee but was reinstated by District Judge Gene Jordan Feb. 23.

University officials said Aldridge was suspended for violation of student probation.

## WT Building Is Approved

Approval of plans to construct a \$3,000,000 administration building complex at West Texas State University was given Monday by the Coordinating Board, Texas College and University System, in Austin.

With approval by the coordinating board, WTSU hopes to submit preliminary plans for the "university complex unit 1" to the Board of Regents of State Senior Colleges at its May meeting, according to Virgil Henson, comptroller.

He expects that it will be six or eight months before final plans and specifications may be drawn.

The proposed new complex would include an administration building and adjoining classroom building which would house the School of Business and other departments of instruction, Henson said.

It is estimated that the complex, to be located on the lot just north of the present Administration buildings, would cost about \$3,000,000.

## Little League Try-Outs Held

Some 80 boys participated in Little League try-outs held Saturday at the Little League baseball park according to Eddie Holcomb, player agent.

Bids were taken for new boys eligible to participate in the major leagues with returnees from last year.

League president Jim Boyce said that managers are still needed for nine-year-old boys and the minor league teams. Boyce also urged 8 year old

## Promotion Set May 19

Plans were made Monday at a meeting of the Canyon Chamber of Commerce Retail Merchants' Committee for a "Moonlight Madness" promotion May 19.

The promotion will be similar to one staged last year. More details will be announced at a later date. The committee also named holidays on which Canyon merchants will be requested to close.

These are Memorial Day, July 4, Labor Day, Thanksgiving, Christmas and New Year.

A move is underway to restore this old Panhandle landmark. It is the old T-Anchor headquarters which is located on West Texas State University property north of Canyon. Randall County commissioners court has agreed to

help out in building a road to the cabin. Dr. James P. Cornette has pledged as much help as possible from the university. A fund campaign for the old building's restoration may get under way soon.

## Carousel Production Gets Underway At BIT

Man's ride on the merry-go-round of life too often ends before he catches his brass ring. He longs to push back the finality of death and have one more chance—a chance to say, to do, to accomplish his dream.

In their musical, "Carousel," Rodgers and Hammerstein give man his second chance. Their "Billy" uses his chance somewhat better than did his predecessor Lillom in the play by that name by Fer-

enc Molnar, but the poignancy of contrast in motives and actions is true to the original.

The gay, sad, moving musical will be presented by the Opera Workshop at West Texas State University's Branding Iron Theatre. The production began Wednesday evening and will continue through April 23 and 26-30 at 8:15 p.m.

The blustering barker, Billy, played by Terry Milligan of Tulsa, will captivate the innocent romantic, Julie, played by Nancy Davis of Canyon. The enthusiasm and heartbreak of love will again reach out through such songs as "June is Busting Out All Over" and "You'll Never Walk Alone" as sung by Nettie, played by Elsa Porter, assistant professor of music.

The comfort of conformity and conservatism will shine through Mr. and Mrs. Snow, played by Jerry Curry of Leveland and Jo Ella Cansler of Hereford. The weakness and cunning of woman will be in Mrs. Mullin, played by Neva Chowning of Amarillo, and evil will be superbly grimy in Ligger, played by Gare Brundidge of Corpus Christi.

The language of money will be spoken by New England industrialist, Mr. Bascombe, and his wife, played by Wes Schultz of White Deer and Lindsey

Dowell of Amarillo. The vulnerability of the young is in Louise, Julie and Billy's daughter, played by Beth Fortenberry, of Tascosa High School in Amarillo.

A production of the music, speech, and art departments, "Carousel" will be directed by Royal Brantley, director of the opera workshop.

William A. Moore, associate professor of speech, will be stage director and will also play the commencement speaker in the final scene. Choreography will be by Neil Hess, Tascosa High School drama instructor. Mrs. Moore will be acting coach, and Miss Porter, voice coach.

## New City Law Code Gets OK

By WAYNE BOARD

A new codification of ordinances for Canyon were approved on first reading at a Canyon city commission meeting Monday night.

The new ordinances, to be printed in loose-leaf form by the Municipal Code Corporation of Tallahassee, Fla., were studied by a legal firm em-

### Fire Hazard Inspection Set May 17

A fire hazard inspection tour for community businesses, churches and schools was approved at a meeting of Canyon insurance men last week.

Bob Moore, West Texas president of the Texas Insurance Field Men's Association, told the men that the tour would be on a voluntary basis and would involve 20 or 25 insurance men from outside the city who would make the inspection.

Moore showed a film depicting what the tour entails and explained the men would plan a parade, school demonstrations and possibly an inspection of West Texas State University.

He said the voluntary inspection would probably be conducted May 17 and carry over until the 18th if necessary. A "team" of inspectors, he

### Killgore Open House This Week

An open house for the recently completed Killgore Research Center at West Texas State University has been scheduled both Saturday and Sunday afternoons from 1 until 5 p.m.

Constructed at a cost of \$450,000, the center will house more than \$100,000 in scientific equipment designed for special research in life, earth, and physical sciences. Additional research in the fields of

played by the city to see what changes were needed and to make recommendations to the commission.

"Actually," said City Manager Gary Gwyn, "there were very few changes made from existing ordinances, but the revised ordinances will help clarify certain points and to organize our rules and regulations."

He said the loose-leaf printing was to allow for later additions and deletions. Gwyn said the revised ordinances should be returned from the printers about June 1. Commissioners agreed to have the ordinances go into effect July 1 of this year.

Not included in the ordinances were plumbing or zoning laws, but Gwyn said they would be considered by the commission at a later date.

Gwyn also said that this marked the first time the ordinances of Canyon had been re-

### Model House Wins Plaque

Two Canyon High School students won a first place award and division plaque for their display of a model house at an annual Industrial Arts Fair conducted Friday and Saturday at West Texas State University.

Dennis Haley and Mike McBroom, who are in a general drafting class instructed by S.P. Burgess, constructed the octagon-shaped two-story structure of woods, glass and carpet.

The modernistic building was scaled from 1/4 inch to one foot and featured built-in furniture and fireplaces.

Burgess said the top and the second floor were removable so a partially furnished interior could be shown.

He said the boys were also awarded a plaque for having the best display in open division at the fair.

Burgess said he advised the boys on the fair project, but that they did all the work on the design and construction.

### Study Group Meeting Set

A citizens' study and research committee will meet at 3 o'clock Sunday afternoon in First Baptist Church.

Purpose of the meeting is to study means of improving the moral and spiritual life of the community.

The committee will be made up of two representatives from each organization in town. Oscar Hinger is chairman.

"We hope to study and find out for ourselves things which we might do to help our already fine community."

## More Resignations Are Expected Soon

Dr. J. Manly Bryan Wednesday said he would resign as soon as possible from his post as head of the Board of Health of the Amarillo Bi-City-County Health Unit.

Dr. Bryan announced his decision as a result of an Amarillo city commission vote to retain Dr. Mason Kahn as director of health for the unit.

The board had requested that Dr. Kahn be asked to resign. The Amarillo city commission voted Tuesday to retain Dr. Kahn.

"I feel like it would be im-

possible for me to continue on the board and work with Dr. Kahn when I've already made a commitment about his being retained," Dr. Bryan said Wednesday.

Dr. Bryan said his board had investigated unfavorable reports on the unit since Jan. 1 at the request of Amarillo city officials.

When the report was submitted, four members of the board voted for dismissal. In a minority report, three members felt that Dr. Kahn should be retained but that corrective measures should be taken.

Dr. Bryan said the board is an advisory group only. He said he felt that others will resign from the board in the very near future.

Randall County commissioners court Monday afternoon voted unanimously to support the majority report of the board.

Commissioners acted after hearing a report from Forrest Gruner, the county's representative on the board.

Gruner said the whole department seems to be in an "upset" condition. He said

## CHS To Begin District Play

Canyon High School, with a 1-0 mark, opens its play in district baseball action next Tuesday in Dumas.

Coach Tom Buchanan and his charges whacked Nazareth 14-1 in their first game of the campaign, as the Eagles smashed out 14 hits.

## Circle K Aids RC Campaign

Circle K, service organization at West Texas State University, will conduct a door-to-door campaign Monday evening for the Randall County Red Cross.

The special effort will be held in conjunction with an extension of the Red Cross Drive to include the remainder of April seeking a county goal of \$1,620.

Some \$250 of the goal is a separate emergency fund which has been requested of the county due to recent major disasters throughout the United States and the conflict in Viet Nam. The national emergency

(See CIRCLE K, Page 7)

Tom Lair, who took the decision in the fifth inning contest, will be the starter for Canyon against the powerful Dumas team in the Tuesday affair. David Rossi will be accepting the pitching offerings of Lair. Rossi, a powerfully built catcher, ripped a home run against Nazareth and also did an exceptional job behind the plate.

The Eagles will meet the Demons in a single game of seven innings, beginning at 4 p.m. in Dumas. Each team in district plays the other two, four games, as only three teams compete in the district baseball competition.

Dumas grabbed its 17th win of the season over Nazareth Tuesday. The Demons had to battle for their lives before winning 11-8. The only team to beat the Demons was a 4-AAAA school, before Easter.

Apparently, the Eagles will have their hands full when they collide with Dumas, but if Lair can come through with a solid pitching effort, it's conceivable that Canyon could take its first district victory. The game alone is history-making, as Canyon has never before competed in interschool baseball.

FIGHTING HEART award for outstanding playing with the Eagles football team was awarded to Wayne Brewer, right, Monday evening at the annual athletic banquet. Presenting the award is coach Jim Greenwood.

## Athletic Awards For CHS Seniors

The awarding of seven outstanding achievement awards and a keynote address by Burl Bartlett of Texas Tech, highlighted the annual Canyon Sports Banquet Monday night.

Rick Bacon, an all-district basketball selection at Canyon the past season, was named the most valuable player on the 1966 basketball team. The 6-6 center was a big reason for the surprising showing of Coach Tom Buchanan's cagers in district 1-AAA.

Wayne Brewer, a fine all-around football player on Coach Jim Greenwood's gridiron

### 85 Apply For 'Texas'

Some 85 applications for places in "Texas", summer Pioneer Amphitheatre production slated in Palo Duro Canyon, have already been received, said William A. Moore, director.

They have come from most of the principal schools in Texas and in near-by states, Moore said, and from North Carolina on the Eastern coast and California on the west.

Some of the applicants have sent tapes to be considered at the try-outs and some are planning trips here for the occasion.

Try-outs will be held in the Fine Arts Building at West Texas State University April (See 85, Page 7)

COVERING FUMBLE

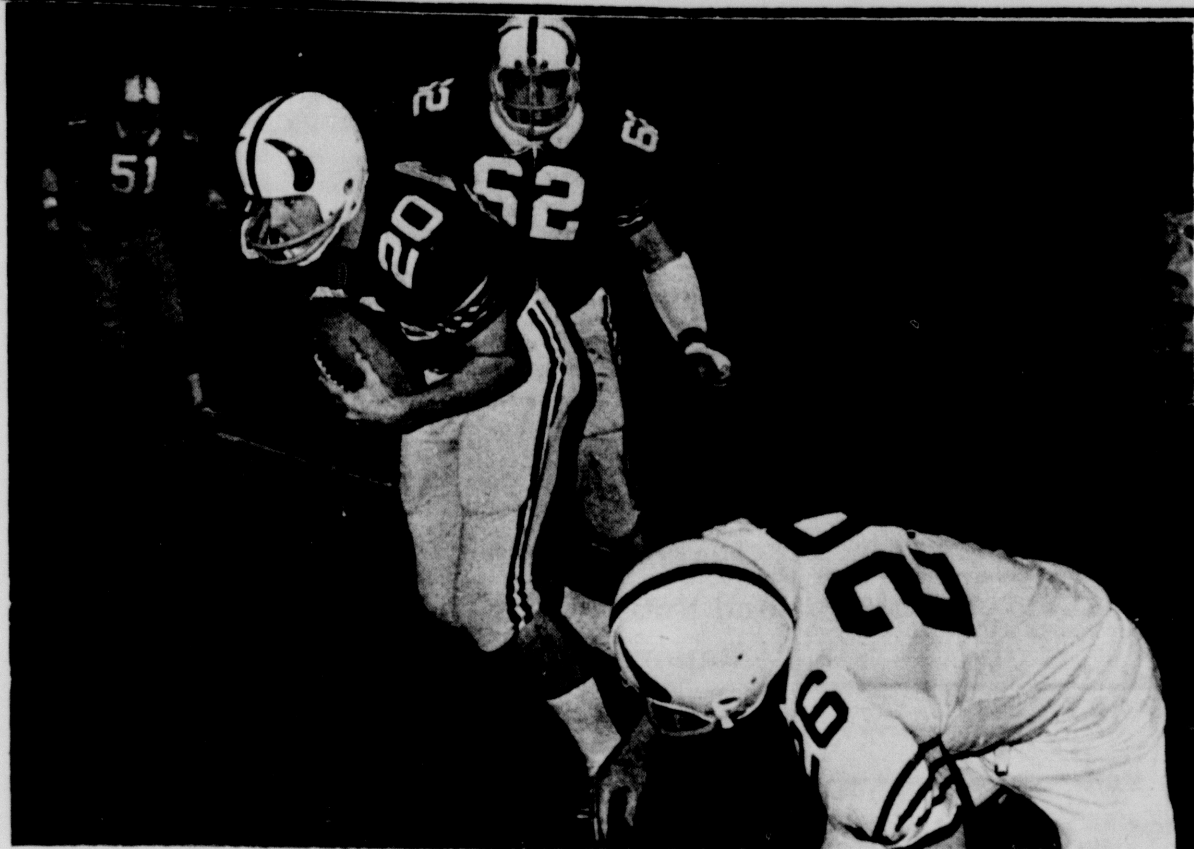

Don Milt Jones

I am often reminded of an early day neighbor who kept a bulldog and a feist. The bulldog was majestically powerful but reasonably weak but unreasonable. Together they were powerful and unreasonable!

MIKE MCBROOM, left, and DENNIS HALEY exhibit ribbons and a trophy for first place in the open division of the Industrial Arts Club Fair held recently. The Canyon High School students exhibited a two-story octagon house in miniature with blueprints.

Another Varsity touchdown! Jim Young of Mule-shoe intercepts a pass and goes for score in the Varsity-Alumni Game. Dennis Flanagan (No. 26) tries for tackle. No. 51 and No. 62 of the varsity are Burl Wood and Dave Gasser.

## Varsity Team Rips Exes Eleven 35-13

BY ART ALBRACHT

Although the statistics were evenly matched, the Varsity footballers of Coach Joe Kerbel swamped a veteran Alumni team 35-13 last Friday in the annual Varsity-Alumni Game. A crowd of 5,500 watched the Varsity ease to its fourth win in five games in the annual gridiron affair. The Buffs turned Alumni mistakes into scores on four occasions.

One of the most exciting plays came on a 78 yard pass interception return by cornerback Tom Krempasky in the second

quarter of the battle. Marc Allen, a huge defensive guard, covered an Alumni fumble at the Alums' 21 for the break that set up the final Varsity tally.

Just as they did during the past five weeks of spring workouts, sophomore-to-be backs stood out for the Varsity team. Gene Morris, a lightning-fast halfback from Pittsburg, Pa., burst loose for two Herd tallies, while another freshman, Albie Owens, turned in a strong running game but didn't score.

Morris raced 30-yards around right end for the first WTSU marker. The muscle-bound back totaled 60 yards on seven carries, while Owens managed 27 steps on seven excursions at the Alumni defense.

Big Hank Washington fired the pigskin for 142 yards on seven of 11 completions, one a touchdown bomb of 37 yards to Dave Szymakowski in the second half. Second string signalcaller Roy Winters had his problems, as professional Jerry Richardson of the Los Angeles Rams, and Alumni picked off the quarterback's attempted pass at the Varsity 28.

Richardson, who was an excellent performer both offensively and defensively during his varsity days at WTSU, raced with the interception to the Herd's three. Quarterback Barry Johncour fooled the Buffs defense on the first play from scrimmage, as he moved the ball into the end zone on a quarterback sneak.

Tommy Coffey, Richardson and Johncour took part in most of the Alumni fireworks. Donald Dennis ripped for a 22-yard touchdown pass and run play for the first Alumni tally.

Actually, the Alumni totaled 298 yards of total offense to 270 for the Varsity. On the other hand, the Alums fumbled five times and had four passes intercepted.

Sunday guests in the Arvin Triplett home were Mr. and Mrs. Rowland Triplett and Mary Elizabeth of Claude, Stan Ely of Amarillo and Ray Mickey of Canyon.

Thursday evening at 7 p.m., Cantanzaro will narrate a 2-hour color film entitled "Proclaiming Everlasting Good News Around the World." The showing will be in the student Union Building, West Texas State University, and will be narrated by Cantanzaro.

## Library. . .

(Continued from page 1)  
said, "when public school students are told by their teachers, 'now, the best place to find this assignment's information is at the University library.'"

Blackburn said that the WTSU books were needed for university classroom instruction. "We don't keep a large supply of fiction or best sellers and even the fiction we have is more suitable for university classroom instruction," said the librarian. "Even our children's books are needed for elementary teacher preparation."

In reference to National Library Week that began Sunday, Blackburn said, "the trouble is, we are paying lip service to NLW, then we forget it for the rest of the year."

"What Randall County needs," he stated, "is more than one week for libraries--we possibly need a year or even a decade to get the job done."

He said he thought the first step might be something called a "Library Parents' Club" composed of men and women in the community who would aid the cause of better school library facilities. He said there was a national organization that helped public libraries called the Friends of the Library.

"While good wishes and charity will help, you can't operate a library on them alone," Blackburn said.

He said he felt if the citizens could get adequate financial support from the city and county commissioners and eliminate or suppress the phobia of Federal aid which could help get a building, then part of the problem would be solved.

The national average per capita for public libraries is \$1.50, he said, while Texas spends 84 cents. He said the American Library Association has recommended \$3.50 or \$4 and the Texas Library Association has set an interim figure of \$2 per capita.

Former Texas Gov. Price Daniel told the conference, he said, that perhaps the people should talk to their legislator about changing the law to allow the State to appropriate money for public libraries.

Another speaker at the conference, Blackburn recalled, said that the State spends \$5,100 on each student for education from grades one through twelve, or \$425 per year, and \$42 on public libraries for continuing their education for the next 50 years. "And that," he said, "is not \$42 for each year, but for the entire 50 years."

He said Randall County and Canyon city commissions each gave \$1,500 for the library facilities last year, and some women's clubs contributed small amounts, but after salaries, 25 magazine subscriptions and other expenses, the total amount that could be spent for books was \$430.

"With the rising cost of books, that doesn't leave very much," he said.

There are roughly 40,000 people in the county, leaving a per capita amount spent on public libraries at about 7.5 cents, he said.

Figuring the 7.5 cents per capita spent on the students over the next 50 years would be \$3.75, he stated.

One solution, Blackburn said, might be to make part of the county a library district and then be able to vote bonds and receive state and/or federal assistance for library projects in the community.

Blackburn pointed out how increasingly difficult it is and will become for students to get into colleges and universities. He said that good library facilities were no longer a luxury--but a necessity that should be a major part of any school system.

Blackburn said he was willing to aid a public library program in any way he could, but that university library facilities should not be used as a community "crutch" indefinitely.

Dr. Walter H. Juniper, WTSU dean; Boone McClure, director of the Panhandle Plains Historical Museum; Clarence Beckman, Randall County commissioner; and Mrs. Murphy White, representing the library board; also attended the conference in Austin.

The city fire marshal, Huey Laycock, superintendent of Canyon High School; and those present agreed the meeting would aid them in preventing fires in the community.

Moore and Joe Goble, director of inspection for TIFMA, said they planned a showing of the film to every civic organization in Canyon to orientate them on the upcoming tour.

Bill Davis, local insurance man, is coordinator for the city-wide inspection tour.

Moore stressed that the inspection was entirely voluntary and no legal action could be instigated if hazards were found.

No dwellings would be inspected, he said.

## Volleyball Girls In Regionals

Canyon High School sends its district girls volleyball champion team into the regional meet at Odessa this Saturday.

The Eagles, with a perfect 7-0 mark, will battle the champion of district three in the opening round. Canyon defeated Muleshoe 15-4 and 15-12 to take the district play-offs last week.

The district was divided into the North and South, and the CHS team took the North half easily. To do so, the Eagles had to better teams from Perryton and Dumas. Muleshoe won the South half and the right to represent it against the Canyon team in the district play-offs.

On the starting six for the Eagles are Linda Gill, Beverly Price, Linda Clark, Sally Swartzell, Sherry Killingsworth and Pam Sternenberg. Coach Royce Elam also has six fine reserve players to back up the starters. They include Kathy Gerald, Gail Swartzell, Debbie Sparks, Linda Metcalf, Janet Ritter and Lee Hicks.

Manager Karen Ruthart has also served the volleyball team, which swept without defeat to the district championship.

## Pet Shots Next Week

Annual rabies vaccinations will be given at a reduced rate during a two-day drive, April 29-30, at Markham Veterinary Clinic.

The clinic will be open from 8 a.m. to 6 p.m. both days and all pet owners are urged to have their animals vaccinated for the dread disease.

Rates will be reduced from the regular \$3 to \$2 during the two-day clinic according to Dr. J. L. Markham.

"Canyon has not had a lot of rabies in the past, but the only way to make sure is to have all pets vaccinated," said Dr. Markham.

## Killgore Council Meeting Scheduled

The prospective role of the Killgore Research Center in medical research will be outlined to the center's advisory council which will meet on the West Texas State University campus Wednesday.

The council will open its sessions at 5 p.m. in the recently-completed Killgore Research Center, when Dr. Marion Guidry, life sciences project director, will speak. He will discuss his research in arteriosclerosis.

A native of Hereford, Dr. Clark has been director of the Houston hospital since 1946. He is professor of surgery for the University of Texas post-graduate school of medicine at the hospital.

West Texas State University pushed the golfers of Hardin-Simmons University to the limit Tuesday in Abilene, before falling in a play-off hole.

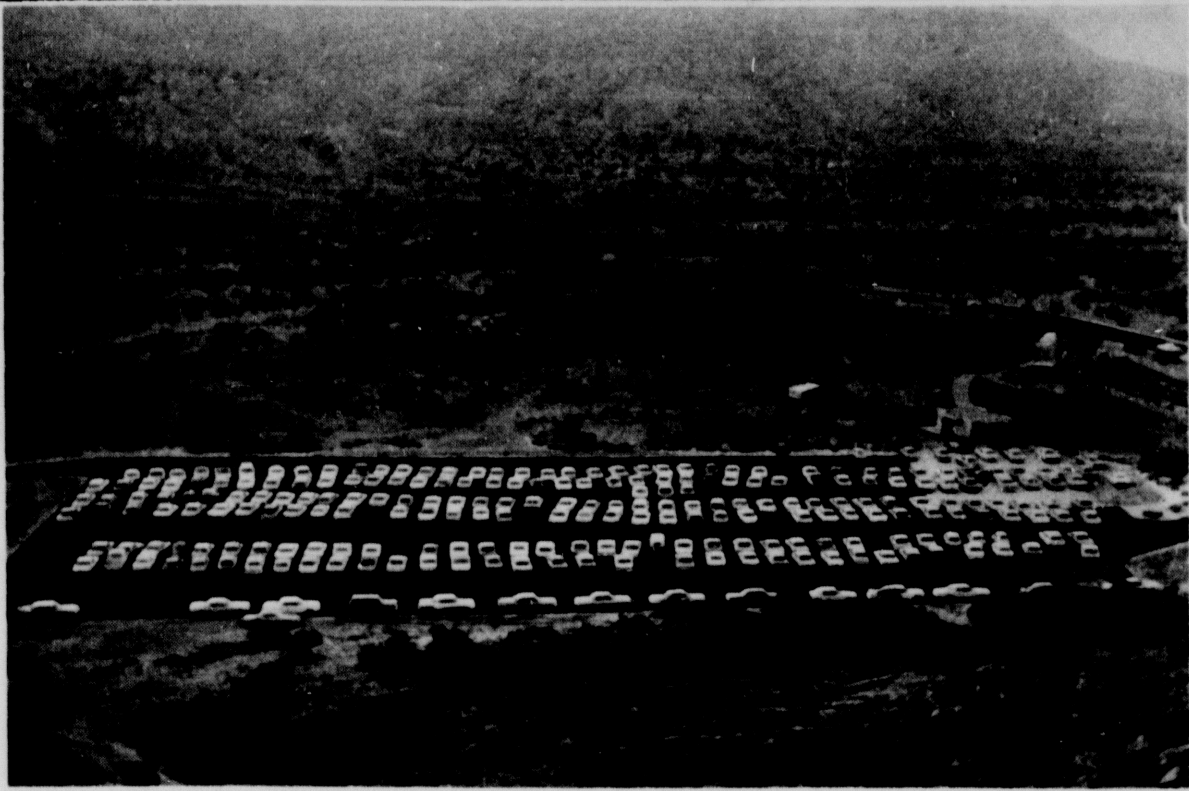

The Buffs had tied the Cowboys at 31/2 in regulation play, but the HSU team withstood the pressure to deal WTSU its fourth defeat in five outings. WTSU took its lone win several weeks ago over Panhandle A&M.

A sudden death hole handed the Cowboys the victory. Hardin-Simmons won by one point, as the scores of the top four of five players on each team were totaled on the extra hole, giving the Cowboys the decision.

Ricky McEmore, and Jim Johnston were victorious for the Buffs in the single contests, while in doubles a team of Bill Childers and Bill Rice halved their match. McEmore and Latimer managed a doubles win for WTSU taking the Cowboy team 1-0.

Lindsey also suggested that Gwyn talk with drive-in owners to see if more effective means could be used to control litter on their property.

If litter is dropped by automobiles while on the drive-in owner's property, the owner would be liable under existing health ordinances, Gwyn said. He said he might suggest more available trash-collection boxes to the owners.

## Buff Baseballers Lose Five Outings

BY ART ALBRACHT

In the past week's baseball action, the Buffaloes of West Texas State University dropped five more contests.

In the latest episode of the WTSU version of the New York Mets, the Herd battled right with Eastern New Mexico University for six innings before falling 9-6. WTSU also fell to Panhandle A&M twice and Southwestern Oklahoma State in a pair of battles.

ENMU used 11 hits and four Herd errors in whipping the Buffs 9-6 last Tuesday on the Buffalo Baseball Field. The Hounds tallied three markers the last three innings to take the victory flag.

The Buffs banged out 10 hits in the losing cause, one of them a booming three run homer by Steve Oakley in the first frame. Another homer by Randall Murry was nullified, when the Hounds saw Murry miss second base, appealed to the umpire, and had the home run discounted. Oakley a defensive cornerback on the WTSU football team, also ripped ENMU

pitching for a single in the last inning of the nine inning battle. Gary Stagner, Murry, and Darrell Aldridge all managed two hits apiece, in the finest WTSU offensive showing of the season. Gene Gerber, the winner of the only WTSU baseball win, took the defeat allowing but two earned runs in seven innings of pitching.

John Soderstrom led the Greyhounds to victory with two hits and four runs batted in.

Against Panhandle A&M, the Buffs appeared on the verge of winning their second game of the season, only to have the Aggies explode for ten runs in one frame. The Pan Aggies waltzed to an easy 17-7 decision in the opener and then danced to a quick 12-0 shut-out in the nightcap.

In the coming week, the Herd will attempt to attain someface despite a 1-17 record when it hosts Abilene Christian College in a twin bill Saturday and then travels to battle Texas Tech in a pair next Tuesday in Lubbock.

**IS CANCER  
A CURABLE DISEASE?**

Medical science has learned much in recent years about the causes and treatment of cancer. We now know that a predictable percentage of people will develop cancer each year.

But, we also know that if the diagnosis is early, before cancer has the time to gain a firm foothold, at least half of cancer attacked victims can be saved by present treatments. Until the soon expected cure for all is discovered, we urge you to get frequent health check-ups.

# 'Carousel' Songs Rely On Professor's Voice

BY BOB KING

"Carousel", the Rogers and Hammerstein musical comedy opened last night, Wednesday, in the Branding Iron Theatre at West Texas State University and will continue through Saturday evening.

Second week of the musical presentation will be April 26-30 in the BIT with performances each evening at 8:15 p.m. Admission is \$3 for adults and \$2 for students and reserved tickets are advised. WT students may pick up tickets with their activity cards. The box office is open daily from 11 a.m. to 5 p.m. (except Sunday) through April 30.

Rogers and Hammerstein's productions are designed to thrill, amaze, amuse and delight musical comedy audiences—but the magic of the musical is also created by performers and directors.

And to insure that magic, West Texas State University directors will be featuring the singing talent of Elsa Porter as Nettie as she sings such songs as "June Is Busting Out All Over" and "You'll Never Walk Alone".

Miss Porter, assistant pro-

fessor of music, has long been recognized as one of the leading voice instructors in the area. Her students have accumulated imposing lists of awards and other forms of recognition.

She has performed numerous times as soloist with the Polk Street Methodist Church in Amarillo and has been guest soloist with the Amarillo Symphony.

From an unlikely start as an English teacher, women's physical education instructor,

sponsor of the glee club and "just about everything else in the book" at Panhandle High School, Miss Porter's career was born.

As sponsor of the glee club, Miss Porter says she realized "my true love lay in the field of music".

At Texas Christian University, Miss Porter had majored in English. So it was back to school again. This time it was the University of Oklahoma. At O.U., she received her B.M. and M.M. degrees. She has

also studied voice under Eva Turner, who for many years was the leading opera star at the Covent Garden Opera House in London.

In her final year at O.U., Miss Porter performed in the first opera excerpts produced by that university, singing the role of Lenore in the grand opera "Fidelia".

As choral director at Horace Mann Junior High in Amarillo, Miss Porter began her teaching career in music. During this period, she won the Chicago Theatre of the Air auditions, and performed in their Young

Artists concert.

While at Horace Mann, her talents as a singer became more and more in demand. She began to sing with the Polk Street Methodist Choir, and appeared as a soloist for the Amarillo Symphony in the "Messiah".

In 1956 Miss Porter came to West Texas State University as an instructor in voice and assistant to the director of the opera workshop, Royal Brantley. She worked with all the musical comedy productions in the new Fine Arts Building beginning with "The King and I".

In 1964, Mr. Brantley was on leave of absence to work on his doctorate, when Miss Porter proved herself as a director by producing "My Fair Lady".

Last fall Miss Porter was musical director of "The Fantasticks". She says, "The Fantasticks was an unusual exciting experience. Production of this type of musical gives you a large amount of freedom. You are able to go into detail with each facet of production."

Miss Porter's voice students, both literally and figuratively "sing" her praises.

Jean Gray, Pampa junior, recently performed as a feature soloist in the Amarillo Symphony's Young Artist Concert.

Another of her students, Gary Brundage, Corpus Christi senior, says "an excellent teacher and a marvelous person, her best technique in instruction is interest. She creates interest on the part of the student and works for full potential and capacity."

In her own words, "every individual student takes a different approach and requires individual attention."

## Why hasn't Mrs. Reba Hays missed a day's work since May 10, 1951?

Mrs. Hays is an operator for Southwestern Bell in Fort Worth. She hasn't missed a day's work since May 10, 1951. You have to have some pretty good reasons to work 15 years without being absent one day. You have to have what we at Southwestern Bell call the "spirit of service." Mrs. Hays has this spirit.

"I've been very lucky to keep in good health," says

Mrs. Hays. "And something else that helps is liking my job. It's the company's responsibility to give the customer good service. As an operator, that's my responsibility, too."

Mrs. Hays and 50,000 other Southwestern Bell people have one thing in common. They're making your telephone service—already the world's best—even better.

## For Jaycee Concern Is Youth Development

Youths of Canyon are a major project of the Canyon Junior Chamber of Commerce which is currently sponsoring the "soap box derby" entries from Canyon.

The local civic club showed an introductory film to boys and parents at a meeting last Thursday evening in the Rex Reeves Elementary all-purpose room.

Local boys desiring to enter the soap box derby should contact a member of the Jaycees for additional information on rules of the derby which will be held in Amarillo later in the summer. Winner at the Amarillo derby will receive an expense paid trip to Akron, Ohio to compete in the national eliminations.

Along with the "soap box derby" the Canyon Jaycees play an integral part in many varied youth and community betterment projects.

The civic club sponsored an Easter Egg hunt for some 400 Canyon youngsters on Easter Sunday and gave away 20 prizes to local youths.

Plans are currently underway for the annual "fish rodeo" which will be held for youths of all ages. Trophies and ribbons will be awarded to youths in the early summer project.

At graduation time, the club annually sponsors a scholarship for an outstanding high school graduate who might not have an

opportunity to complete his education otherwise. The student is selected by a panel of Jaycees and teachers at the school.

"We help out every way that we can," commented Wayne Edmondson, new Jaycee president. "Youth is one of our primary concerns—and since most of the fellows are still young men (membership is limited to 21-35 years of age) they really enjoy working with the youth."

"We realize that our members are willing to work and want to be active in community affairs, and that is one

### Westside 4-H Meets

The Westside 4-H Club met Friday at the Farm Bureau Building for a program on 4-H record keeping presented by Connie Brazzil.

Glenda Hollenstein was advanced to president upon the resignation of Linda Hicks. Leading the 4-H club motto was Millie Hales.

Others present were Leta Cranmer, Joelyn Crowley, Sue Green, Linda Hales, and leaders, Mrs. Anton Hollenstein and Mrs. Joe Grady Crowley.

Going somewhere? Or been? The Canyon News wants to know about it -- and so do its readers.

of the reasons that we are always working on several projects," said Edmondson.

A major fund raising project for the Jaycees is the sale of flag contracts which are sold each year to local businessmen. This year, the club has adopted a "package contract" which will enable businessmen to purchase the regular flag contract, an associate membership in the club, tickets to the barbecue and installation banquet, and radio day advertising for a minimum cost.

Radio Day is a second major money-making project of the club. The club annually operates the local radio station one day per year and gains one-half of the advertising income which they sell.

Projects of the club vary each year, but among the annual events are the Christmas theme projects such as the Santa Claus house for local youngsters, the outdoor lighting contest, and assistance with the Jaycee-Ettes' live nativity scene.

The Jaycee-Ettes are active in many of the Jaycee projects of their husbands and are always ready to lend a helping hand according to Mrs. Guy Hamblen, Jaycee-Ette president.

"The two clubs work closely together on a number of projects and activities," said Mrs. Hamblen. "The main purpose of the local Jaycee-Ette club is to assist the Jaycees with their projects whenever they need us. Of course we also do a number of community projects of our own such as hospital favors on holidays and holiday baskets for the needy."

A pre-requisite to membership in the Jaycee-Ettes is that the prospective member's husband must be a member of the local Jaycees.

"Too many people think that you have to be invited to be a Jaycee," said Edmondson. "This isn't so—anyone can join by contacting a Jaycee and coming to the meetings."

The Jaycees meet weekly on Tuesday evenings at 7:30 p.m. in the Green Room at the West Texas State University cafeteria. And the Jaycee-Ettes meet bi-monthly in the homes of members.

Both clubs keep up with current events with programs of all types featuring world and local subjects of interest to members. The Jaycees were designated as a training ground for community leadership and it prepares young men for the greater responsibilities they will hold later on.

Even from their beginning in 1957, the Jaycees have been one of the most active organizations in town according to their list of activities. They have spent time, energy, and money to see that the city of Canyon is a better place to live.

### City-Wide Inspection

INSURANCE MAN Bill Davis of Canyon, left, discusses plans for a city-wide fire hazard inspection tour May 17 with Joe Goble, director of inspection for the Texas Insurance Field Men's Association; and Bob Moore, West

Texas division president of TIFMA. They received approval from Canyon insurance representatives and city officials for the inspection that will include businesses, schools and churches.

### Windmill Restored For Park Project

A windmill that has been used in Randall County since about 1909 is being restored to tell the story of what water has meant to the Panhandle of Texas.

The mill, donated by Newton Harrell of Canyon, will stand beside a joint of concrete pipe used to form the Canadian River aqueduct system. The site, seven miles north of Amarillo on Texas highway 136, will be designated by an historical marker.

Recent plans for the project, that will include off-highway parking for tourists, were submitted to Potter County Commissioners by Henry Hertner, member of the sponsoring Potter County Historical Survey Committee.

Joe Currie of Canyon, who is restoring the relic, said the mill was a standard Fairbanks Morse wooden pattern and had only been out of service a few years.

He said it was difficult to find the materials needed for restoration as steel windmill towers are presently used to replace those made from wood. While the mill had been standing for many years, Currie said it had been badly damaged by winds between the first time he saw it and a few weeks later when he transported it to the city for repairs.

He said the mill was located 23 miles north-east of Canyon. The wooden wheel, that measures fourteen feet across, will be painted white with red tips, Currie said. The mill, that, when working, pumped from a 200 feet 2 inch pipe, will also need four anchor posts and two legs made of 5 X 5 inch rough cedar.

One of the legs had been repaired by bolting on another cedar post that looked as though it had been cut with an ax, Currie said, but it too had almost rotted completely away.

Also to be re-constructed will be four complete wood sections of the wheel and new tail fins made of fir. Only about half of the mill can be salvaged, he said.

"We're supposed to have the job completed by the first of May," Currie said, "but if we have a tie-up getting the materials we need, it may take longer than that."

He said the mill would not be used to pump water but that the wheel would be repaired so it would turn and a shaft installed from the top of the derrick to the ground to simulate pumping action.

### Judging Team Takes First

An agriculture team from Canyon High School won first place in land judging contests at West Texas State University Saturday.

Members of the team were Bob Gruner, Royce Loveless, Andy Dorsey and John Sublet. They will compete in a 50-school contest for state honors in Stephenville Saturday.

Winning third place in livestock judging contest, also held Saturday, were Mike Tilger, Doug Breitling, Steve Cooper and Dick Cummings. They will vie for area honors April 30 in Lubbock, said Carrol Duncan, CHS instructor in agriculture.

Local Soil Conservation Service officials prepared the land judging problems.

### Awards Banquet Slated Friday

An awards banquet conducted by the School of Business at West Texas State University will be held Friday at 7:30 p.m. at the Colonial Cafeteria in Amarillo.

Jerry Don Miller, chairman of the annual banquet, said some ten awards would be presented to outstanding members in the school.

Three awards for outstanding accounting senior, junior and sophomore will be presented, Miller said. He said judging for the three awards was conducted by the American Institute of Certified Public Accountants in New York after accounting students had taken proficiency tests last week.

The alumni chapter of the school will also present watches to the three award winners.

Also to be presented will be awards in management, marketing, finance, insurance, business administration, secretarial studies and business education.

Several awards will also be presented by professional organizations of the school.

Members of the Amarillo business community have also been invited, Miller said, to "see the product we are turning out."

Speaker for the second annual affair will be Louie Throgmorton, who is said to have made 400 speeches in one year. Admission will be \$2 per person, Miller said.

## 100 Compete In Playday

Some 100 contestants were entered in the District II "playday" held Sunday at the Randall County Sheriff's Posse arena, east of Canyon.

pulled ligament entering the Friday meet and then added to the Canyon woes by re-injuring the muscle. According to coach Jim Greenwood, the presence of Brewer in top shape would've given the Eagles anywhere from 30-40 more points in the district meet.

McAtee's timing in the 180 yard low hurdle event was a record-breaking 19.1. The only Canyon regional qualifier thus will advance to the Odessa meet this Saturday.

McAtee also placed third in the high hurdles with a 15.8 time. Other finishers were Randy Harrison in the discus, Alex Jordan in the shot put and the Canyon mile relay team.

Harrison with a heave of 128.6 finished third, Jordan sixth in the shot put, and McAtee, Dwayne Bevers, Tom Lair and Charles Bussy took fourth in the relay event.

Except for McAtee, who will be trying to bring home a regional medal in the low hurdles, the track season is over for the Canyon High School Eagles.

## "Rowing" Badge For Boy Scouts

Rowing merit badges are being worked on by ten scouts of Boy Scout Troop 31 under the instruction of Randy Warren.

The rowing badge requirements include canoeing at Camp Don Harrington which the boys have been working on for a number of Saturday afternoons.

The rowing badge is only one of several badges required to be qualified as a scout life guard according to Meredith

Warren, scoutmaster.

Working on the badge are Mark Raillard, Steve Sims, Vince Wirt, Fred Richard, Pat Hickman, Mike Jolly, Ronny Haper, David Smith and Bobby Ellis.

"We are hoping that all of our boys will pass the inspection," said Warren.

## School Men Attend Meet

Huelyn Laycock, superintendent of Canyon High School, and Dr. Emmitt Smith, director of program development and research at West Texas State University, visited Washington D. C. and New York City this weekend.

They investigated the possibility of a Texas Co-Operative Dissemination Center in Amarillo. Laycock and Dr. Smith also toured the Instructional Materials and Teaching Media Centers of the United States Office of Education in Washington, D. C. and Yeshiva University in New York City.

The proposed Amarillo center would locate and distribute to area classroom teachers the latest educational materials, instructional aids and research findings.

It would be housed with the Panhandle Educational Services Organizational offices in Amarillo.

Dr. Smith will also attend a meeting of the Association for Student Teaching in Albany, N. Y.

He presented study guides suggested as guide lines for a uniform program of teacher education in all states.

Mr. and Mrs. Lee Donnell and children, Kevin Ray and Marta Kay, of Happy visited with her brother's family, Mr. and Mrs. F. D. Schmidt, in Idalou Sunday afternoon.

There are 94 members in the CJHS band, Zook said.

## Assistantship Given Student

A teaching assistantship at Colorado State University has been granted a senior mathematics student at West Texas State University.

He is Wade Harrison of Amarillo, who expects to receive his B. A. degree from WTSU in May. He will begin work toward his M.S. degree in mathematics at the Fort Collins institution in September.

Harrison, who is married, lives with his wife at 1519-B Elm in Amarillo. He is the son of Mr. and Mrs. H.H. Harrison, 3815 N.E. 14th in Amarillo.

A graduate of Palo Duro High School in Amarillo, Harrison is a member of Alpha Chi, national honor society, and was named one of 36 WTSU representatives in the 1965-66 edition of "Who's Who Among Students in American Universities and Colleges."

## Beverly Blaine Is AWS Winner

Beverly Blaine, Plainview senior, was named Woman of the Year recently at the annual spring banquet of the West Texas State University Association of Women Students.

Finalists for the award, selected by a faculty-student board, were Lynda May, Tulia junior; Jerilyn Laramore, Amarillo junior; Joan Gover, Earth senior; and Jeanie Gundrum, Colorado City senior.

Given for the first time this year, the award is based on scholastic ability and service to the university, said Audrey Teague, Amarillo sophomore and president of AWS.

Miss Blaine, who served as head twirler for the University Band this year, is a member of Alpha Chi, honor society, and Kappa Delta Pi, national education fraternity.

Mrs. Mary Lou Martin, of the Mary Lou Martin Modeling and Charm School in Amarillo, spoke to more than 75 AWS members, WTSU administrators, and faculty on the essentials of a poised productive woman.

Members attending a recent AWS convention at Oklahoma State University reported to the group. They were Anita Griffith, Phillips freshman, Janice Burks, Littlefield senior, Elaine Trotter, Dumas freshman, and Mrs. Mary Collins, sponsor.
